

**ARMY COLLEGE OF NURSING, JALANDHAR CANTT**

**REPORT ON “WORLD ORS DAY”**

**Organized by: Department of Community Health**

**Date: 22nd August 2025**

**Time: 11:00 AM – 12:00 PM**

**Venue: Army College of Nursing, Seminar Hall**

**Topic: “ORS – A Simple Solution for a Healthier Future”**

**Department of Community Health at Army College of Nursing, Jalandhar Cantt,** organized a **Guest Lecture** on **22nd August 2025** for the benefit of the B.Sc. Nursing students.

The unfolding of the theme was done by Prof. Charlotte Ranadive (Principal), Col. Jasbir Singh (Registrar) and Dr. Priya Sharma (Vice-Principal) and another department faculty.

The topic of the session was **“ORS – A Simple Solution for a Healthier Future”**, focusing on the significance of Oral Rehydration Solution (ORS) in preventing dehydration and promoting community health, especially among vulnerable populations such as children and the elderly.

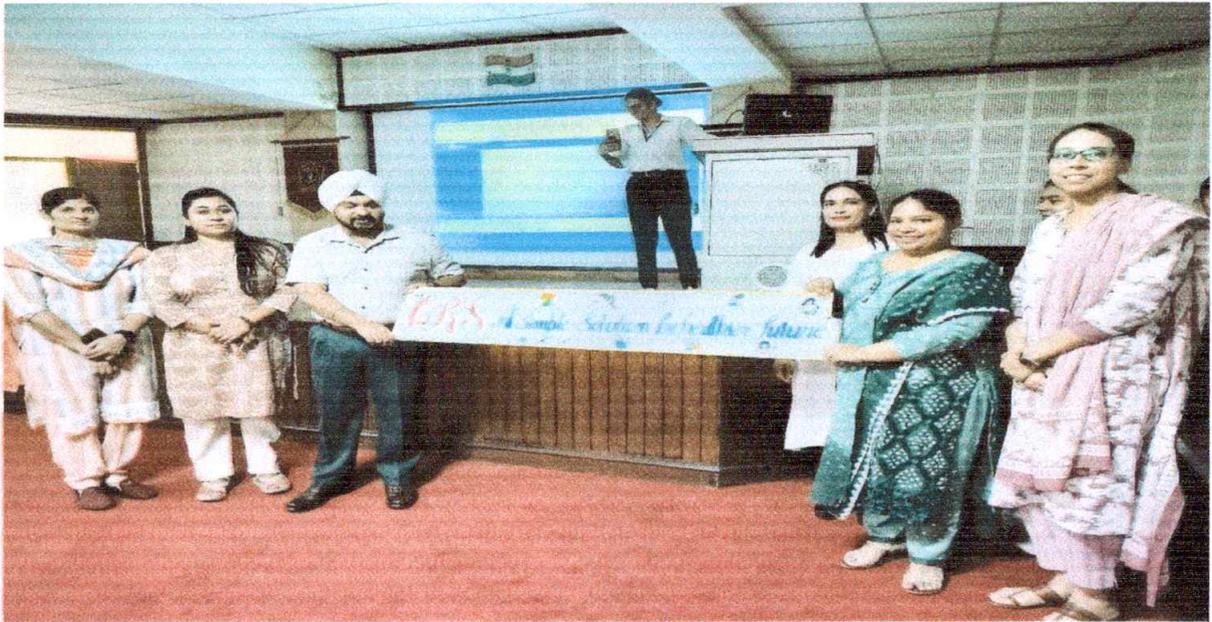

The session was conducted by a distinguished guest speaker, Mr. who shared valuable insights on the role of ORS in managing diarrheal diseases, its composition, methods of preparation, and real-world applications in rural and urban healthcare settings.

The lecture was held from **11:00 AM to 12:00 PM** in the college auditorium and was attended by faculty members, students, and staff of the institution. The presentation was followed by an interactive Q&A session where students actively participated and clarified their doubts.

The session was highly informative and enhanced the students' understanding of practical, low-cost interventions that have a profound impact on public health. It successfully met its objective of raising awareness about the use of ORS as a life-saving solution.

The **Department of Community Health** extends its heartfelt gratitude to the guest speaker for their time and knowledge, and to the college administration for their continuous support in organizing such enriching academic events.
