MINUTES

With the subject mentioned discussed about:-

1. Definition of midwifery led care units
2. Aim of midwifery led care unit
3. Objectives
4. Competencies for MGP
5. Models of midwifery led care

A Midwifery-Led Care Unit is a healthcare facility that provides comprehensive, woman-centered care to low-risk pregnant women, led by experienced midwives. The unit focuses on:

- Personalized, continuous care
- Promoting natural childbirth and minimizing interventions
- Empowering women and families
- Collaboration with obstetricians and other healthcare professionals
